Carroll-MS 4 - Fallacies of Rhetoric

Introductory notes:

This is another logical manuscript from the Warner Bequest.

Carroll-mss_0035-ms4_r

This fragment is not incorporated into Bartley's reconstruction. It appears to have been destined for Book XIX in Dodgson's logical work, probably intended for *Symbolic Logic, Part III, Transcendental*.

Carroll-mss_0036-ms4_v

This fragment is probably from a logical problem solved by Dodgson's "Method of Trees" - the numbers representing the various premises. The associated problem has not been identified.
